

Burj al Arab, Dubai

ECS:104

100,000m² Tredaire Xtra

Located on its own purpose-built island and known as the world's first 7 star hotel, the Burj al Arab is one of the most recognised landmarks in the gulf and one of the most famous hotels in the world.

Renowned for decadent luxury and over the top style, Interfloor was proud to be a part of this prestigious project, supplying 100,000 sqm of our Tredaire Xtra for the guest rooms and corridors.

Xtra was chosen as this type of sponge waffle helps to give a luxurious feel under foot at a cost-effective price.

Tredaire Xtra

The Seven Star Burj al Arab

About Interfloor

Interfloor have been leading the way in underlay manufacture for over 70 years, consistently innovating in the field to produce many of the world's most trusted flooring products. Known for their durability and ease of installation, Interfloor's Duralay and Tredaire ranges can be found in many high profile interiors across the globe, including airports, casinos and hotels.

Interfloor has developed world-class underlays that optimise the life and appearance of carpets, luxury vinyl tiles (LVT) and hard flooring for a wide variety of environments and now exports millions of square metres of underlay to luxury hotels for use in guest rooms, transit areas and communal spaces.
