

Product	Rubber Crumb Cradles and Packers	Page	1 of 3	Version #	1
		Date	15/09/2022	SDS #	100004

Section 1: Identification	
Product Name: Rubber Crumb Cradles and Packers	
Chemical Name/Synonyms: Acoustic and Sports Flooring subfloor system	
Company:	
INTERFLOOR LTD Broadway, Haslingden, Rossendale, Lancashire, BB4 4LS, UK.	Tel: 01706 213131 Fax: 01706 260800 Email: technical@interfloor.com
Section 2: Hazard(s) Identification	
None in Normal use	
Section 3: Composition/ Information on Ingredients	
The cradles and packers are manufactured from Recycled tyre shred and granules from car / truck origins. 92% of the cradle mass is rubber. The rubber shred / granules are sourced from re-treading companies. This is graded into 1-4mm rubber shred / granules size. The rubber shred / granules are bound with a flexible polyurethane (8%) binder. The binder is classified as non-hazardous and is chemically inert.	
Section 4: First-Aid Measures	
After skin contact: N/A After eye contact: No special measures required After inhalation: N/A After swallowing: Do not induce vomiting. Clear out mouth with water but do not swallow, then give water to drink. Seek medical attention.	
Section 5: Fire-Fighting Measures	
Suitable extinguishing agents: Water, foam Special protective equipment for firefighters: Use self-contained breathing apparatus	
Section 6: Accidental Release Measures	
Personal precautions: None required Measures for environmental protection: Not environmentally hazardous Measures for cleaning/collecting: Vacuum or brush.

Section 7: Handling and Storage

Handling: Use good Industrial hygiene practice.
Adopt appropriate lifting precautions.

Storage: Clean, dry, conditions.

Section 8: Exposure Controls/Personal Protection

General protective and hygienic measures: Normal industrial hygiene

Breathing equipment: N/A

Protection of hands: Not normally required

Eye protection: safety goggles only if dusty

Section 9: Physical and Chemical Properties

Physical state: Rubber moulded blocks/strips.

Appearance: Black with 5% Speckle

Odour: Slight rubber

Flammability: Low Classification/Radius of Effects of Ignition. Fire tested according to BS 4790:1987(2009) Hot Metal Nut Method.

Section 10: Stability and Reactivity

Reactivity: Low

Chemical stability: Stable under recommended storage conditions

Conditions to avoid: Strong oxidisers

Incompatible materials: peroxides

Hazardous decomposition products: None

Section 11: Toxicological Information

Acute toxicity: NA

Potential routes of exposure/potential health effects

Skin: Frequent or prolonged skin contact may cause irritation in very rare cases of individual sensitisation.

Eye: Frequent or prolonged eye contact may cause irritation in very rare cases of individual sensitisation.

Inhalation: NA

Ingestion: Possible but not harmful

Carcinogenic effects: NA

Mutagenic effects: NA

Reproductive toxicity: NA

Sensitization: NA

Target organs: NA

Section 12: Ecological Information

Although no data available on the product itself, product is stable in normal use and is not easily biodegradable.

Ecotoxicity: NA

Mobility: NA

Biodegradation: NA

Bioaccumulation: NA

Section 13: Disposal Considerations

The cradles can be recycled through typical re-granulation processes. However the cradles life span under normal conditions should be well in excess of 15 years without the damage from ingress of water.

The cradles do not contain separate ingredients or minerals that would be hazardous to health under the terms of the COSHH Regulation 1998.

Section 14: Transport Information

Not classified under ADR regulations

Section 15: Regulatory Information

No Classification or labelling required

Section 16: Other Information

Whilst the company has taken every care in the preparation of these particulars, no liability is attached for any loss or damage arising from reliance upon information which has been prepared specifically for the purposes of the Control of Substance Hazardous to Health Regulations 2002. The details of composition of products are given entirely for the purposes of the Regulations and, as the composition may vary from time to time, are not given as warranty of specification of products of their use.

Data is given for guidance only and does not form part of any specification.

This material should be stored, handled and used in accordance with good industrial hygiene practices and in conformity with any legal regulations.

This information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process.

It is the user's responsibility to satisfy himself as to the suitability and completeness of such information for his own particular use.

SDS date of preparation/update: 15 September 2022
